OUR DISTRIBUTORS ARE HERE

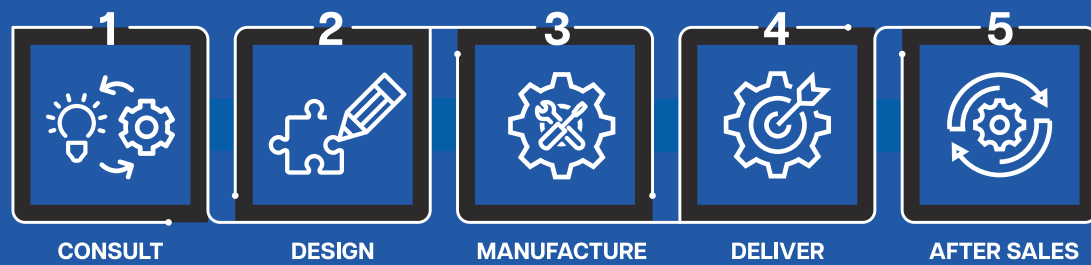

READY FOR ACTION

When the stakes are high, you need work vehicles you can rely on.

OPS Public Safety has over 25 years' experience in the design of work-ready vehicle storage systems for law enforcement and emergency response. From complete enclosed trailers to SUV storage systems, we offer smart solutions designed to keep critical equipment safe, secure and readily at hand for use in reactive and high-pressure situations.

Our systems are cleverly adapted to maximize storage while minimizing waste, and they'll work hard for you and your team for many years – guaranteed.

HOW WE WORK

1. Consult

We'll work with you one-on-one to understand your fleet needs and create specifications for your vehicle interior.

2. Design

We'll determine whether there's a standard solution to fit your needs, or if you require a unique configuration. Next, we'll create 3D renders of your system specification using advanced design software.

3. Manufacture

Your system is manufactured in our 75,000 sq ft factory, using durable, lightweight aluminum plus your chosen inserts and finishes.

4. Deliver

We arrange deliver either directly to your facility or through a local OPS distributor. Our extensive dealer network means we cover the whole of the US and Canada.

5. After Sales

You enjoy a lifetime limited warranty, with responsive support from our after-sales team any time you need it.

ENCLOSED TRAILERS

Enclosed trailers combine versatile storage with adaptable mobile workspace that's always ready to go – any time, anywhere.

Our turnkey trailers contain everything your personnel need for SWAT and command response, event security and disaster relief.

Built for rugged performance off-road and on the front line, our enclosed trailers are fully configurable to suit the unique needs of your team, and delivered to you as a turnkey spec ready to load up and go.

Key features and options include:

- Secure drawers & cabinets
- Chest units
- Closets
- Bench seating
- Countertops & workstations
- HVAC system
- Fully insulated
- Onboard generator and WiFi
- LCD screens
- Exterior powered awning
- Available up to 53ft

VAN SYSTEMS

Transform a van into a specialized response vehicle, equipped to handle whatever the job throws at you. Discover lightweight yet durable cabinet systems that provide versatile storage for equipment, protective gear and weapons.

- Bench seating
- Overhead Chest units
- Countertops & Workstations
- Secure drawers
- Closets & Lockers

REAR CARGO SOLUTIONS

We offer configurable rear cargo storage systems built specifically for the SUV and pickup models most widely deployed in law enforcement. Discover lightweight yet durable aluminium cabinet systems that provide versatile storage for equipment, protective gear and weapons. Choose a standard model or a volume-based configurable solution tailored to your needs.

SUV Storage

- Elevated or floor level mounting
- Designed for PIU, Tahoe, Durango, Expedition, specialty SUV's
- Applications – Patrol, Special Ops, Traffic, Fire/EMS

Pickup Rear Cargo

- Truck bed drawers
- Maxx Slide drawers – full Slideout for 360° access to gear
- Applications – Patrol, Special Ops, Traffic, Fire/EMS
- Weather Resistant

THE OPS DIFFERENCE

Established in 1998, OPS Public Safety has over two decades of experience working with law enforcement agencies, first responders and emergency service personnel. Our vehicle storage systems are development based on real knowledge about what teams need to get the job done efficiently and safely, every day.

Industry-leading design

We work closely with law enforcement and emergency response personnel to develop efficient, secure and safe systems tailored to their specific operational needs. Our product specifications comply with all relevant legislation for the sector.

One-stop shop

Complete consultation, design and manufacturing process eliminates unnecessary delays. Turnkey packages include everything you need to get your vehicle operational, from storage to lighting and even onboard appliances.

Fully configurable

Fully configurable systems - easily mix and match components to create a solution that's perfectly adapted to the needs of your personnel.

Lifetime warranty

Manufactured using aluminium for supreme durability and reduced payload, our storage systems offer robust performance year after year.

Lean manufacturing

Our 75,000 sq ft manufacturing facility runs a Six Sigma lean manufacturing process for optimal efficiency, quality and customer satisfaction.
